

THE BEEKMAN GROUP

The Beekman Group (“TBG”) is a private equity firm dedicated to partnering with management teams to grow companies into market leading businesses. Beekman manages over \$800 million in assets and has access to additional capital through strategic co-investment relationships.

The Beekman team consists of experienced private equity professionals, as well as a select group of Industry Operating Advisors who are leading executives in our targeted industry segments. Our Industry Advisor approach to investing is the cornerstone of our investment strategy – bringing financial and operational resources to lower middle market companies in order to accelerate growth and create value for all shareholders.

We focus on lower middle market investments in service-related sectors including healthcare, consumer, and business services. We partner with management teams who desire to be significant owners and create meaningful value by accelerating organic and acquisition growth initiatives. We employ a unique approach to implementing a value creation roadmap for each investment, as demonstrated by our proven track record, extensive experience, and 25-year reputation.

INVESTMENT CRITERIA

- Defensible market positions, sustainable cash flows and high returns on capital
- Strong operating management team with meaningful equity ownership or desire to have a meaningful stake
- Revenues between \$10 - \$200 million
- Control-oriented transactions with values between \$15 - \$200 million
- Lead or co-lead investments in special situations alongside select equity partners in larger transactions
- TBG investment / equity size between \$10 - \$75 million (additional co-investment capital available)

TRANSACTION PROFILE

- Sale, recapitalizations and management buyouts of privately held companies
- Industry consolidations and platform buy and build transactions
- Capital infusions to finance growth, expansion opportunities and acquisitions
- Special situations transactions
- Distressed opportunities requiring financial restructuring
- Divestitures of non-core divisions of larger corporations
